

City of Pensacola Permit Search Guide

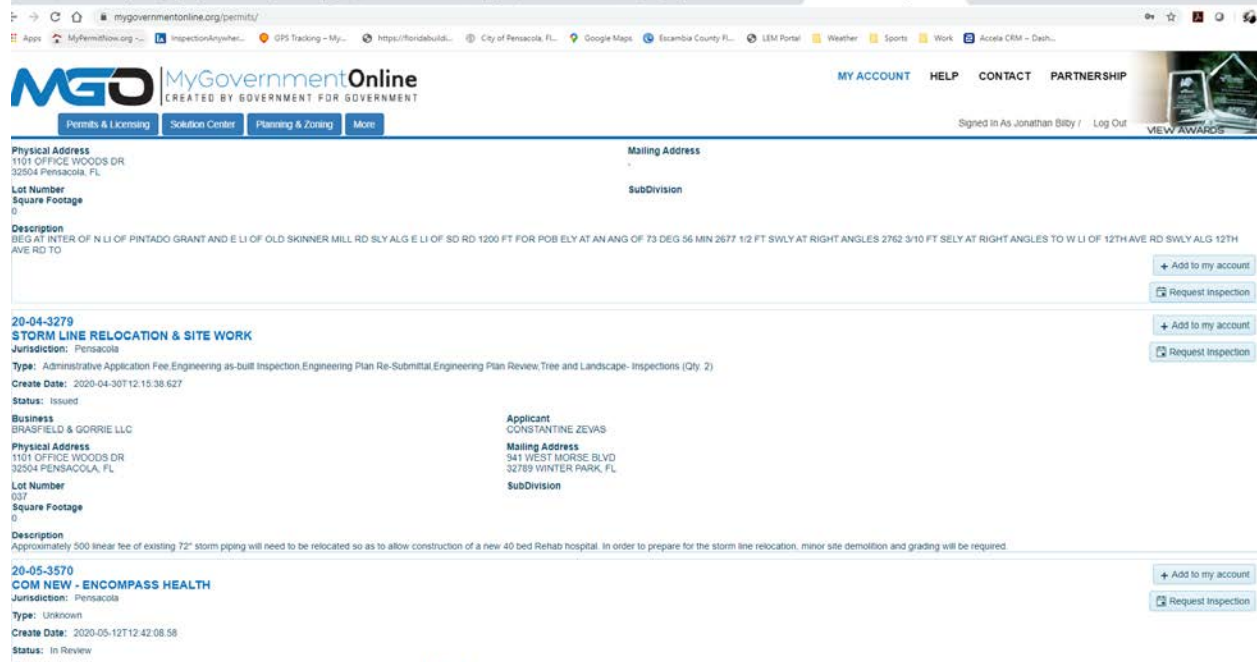

Step One: To access the online permit database, go to www.cityofpensacola.com and select Permits icon at the bottom of the homepage.

Step Two: You will need to create an account with My Government Online using an email address and password. You can then select Permits and Licensing, enter jurisdictional information and search via address or project number (permit number).

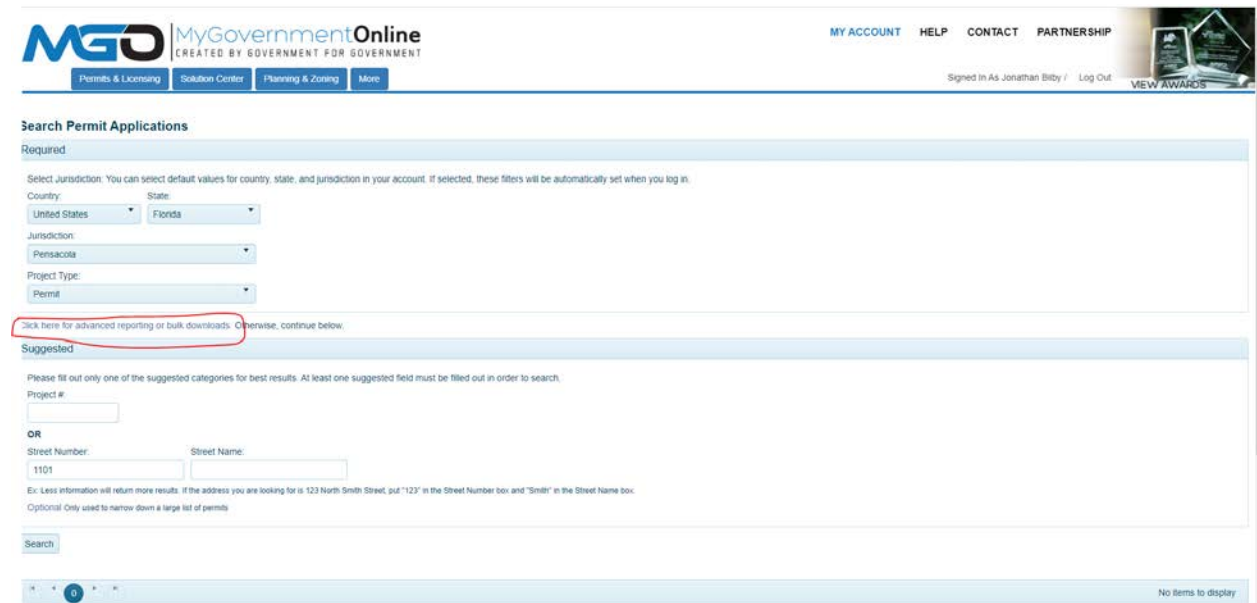

Step Three: All projects under the address searched will populate as depicted below

The screenshot shows the MyGovernmentOnline website interface. At the top, there is a navigation bar with 'MY ACCOUNT', 'HELP', 'CONTACT', and 'PARTNERSHIP'. Below this, there are tabs for 'Permits & Licensing', 'Solution Center', 'Planning & Zoning', and 'More'. The main content area displays search results for a physical address: 1101 OFFICE WOODS DR, 32504 Pensacola, FL. The results are organized into two columns. The left column shows details for a project with ID 20-04-3279, titled 'STORM LINE RELOCATION & SITE WORK'. The right column shows details for a project with ID 20-05-3570, titled 'COM NEW - ENCOMPASS HEALTH'. Each project entry includes a 'Description' and a 'Status'.

Alternative Search: You may also search for bulk records as follows:

Step One: Input jurisdiction information and click "Click here for advanced reporting or bulk downloads"

The screenshot shows the 'Search Permit Applications' form on the MyGovernmentOnline website. The form is divided into two sections: 'Required' and 'Suggested'. The 'Required' section contains dropdown menus for 'Country' (United States), 'State' (Florida), 'Jurisdiction' (Pensacola), and 'Project Type' (Permit). Below these is a link that says 'Click here for advanced reporting or bulk downloads. Otherwise, continue below.' The 'Suggested' section contains a 'Project #' field and an 'OR' section with 'Street Number' and 'Street Name' fields. A 'Search' button is located at the bottom of the form. The page footer indicates 'No items to display'.

Step Two: Click "View"
